Today, many children are overweight(超重). In China, one in ten children has this problem. How can we keep fit? Let's look at Susan. Her height(身高) is 1.4 meters(米). Her weight(体重) is 50 kilograms(千克).

<20	too thin
20-25	good
>25	too heavy

So, 50÷(1.4✖1.4)=50÷1.96≈25.5. By counting(通过计算), then Susan must lost weight now!

A healthy body is very important. There are many ways to keep us fit. In the morning, you must get up early, go outdoors and do morning exercise. Running and swimming can help us keep fit. You should try to make yourself happy too. If you feel happy, you can eat well, sleep well and your body is sure to be in a good condition(状况).

1. Susan is too thin. (　　)
2. To keep fit, we must get up early in the morning. (　　)
3. We can run and swim to keep us fit. (　　)
4. Making yourself happy can't keep your body in a good condition. (　　)
5. Susan's friend, Amy is 1.5 meters tall and 35 kilograms weight. By counting, she is good. (　　)

VIII.Read and answer.(任务型阅读)10%

The Food Guide Pyramid(金字塔) is a general guide that lets you choose a healthy diet(健康餐) that is right for you. The pyramid calls for eating a variety of foods to get the nutrients(营养) you need and eating the right amount of calories(卡路里) to maintain a healthy weight. Most calories should come from the foods in the three lower sections of the pyramid. Each of these groups provides(提供) some, but not all of the nutrients you need. Foods in one group can not replace those in another. No one food group is more important than another. For good health, you need them all.

1. Read and judge. (阅读短文，判断正误，用"T"或"F"表示。)

(1) The pyramid is a guide that lets you choose a healthy diet. (　　)

(2) We should get enough calories to maintain a healthy weight. (　　)

(3) Most calories come from the lowest section of the pyramid. (　　)

(4) Rice, bread and cereal provide all the nutrients that you need. (　　)
